

# STOP THE GENDER IDENTITY BILL HB474 and SB566

*Protect yourself, your family and your rights! --Most people don't know how defective this bill is!*

Don't put women and children at risk!

- It changes the definition of **sexual gender** *from* being determined by our **anatomy** *to* being **whatever sex one claims to be at the time**. Under this law refusing to discard biology could be **punished with a fine**.
- It puts **women and children at risk**. It has no exemptions to keep males out of women's **locker rooms**.
- It puts public accommodations and **business owners at risk** for potential lawsuits and fines in **hiring** or control over **customer restrooms**
- It puts **day care centers at risk**. It has **no protections** or exemptions for **hiring child care staff**.
- It puts **roommates and landlords at risk**. It has no exemptions for singles looking for **roommates or landlords looking for tenants**.
- It puts **churches at risk**. It contains **no exemptions for churches, synagogues or religious groups** in **hiring** or filling **volunteer positions**.
- It puts **school children at risk**. It has **no exemptions** for public or private **schools**.
- In fact, it **adds special rights** to less than 1/10th of 1% of the population, and **takes away rights of the other 99.9%**.
